

Physician Learning Project on Psychedelics and Complimentary Techniques: A Virtual Series

10.5 MOC Section 1 (1.5/session)

10.5 Mainpro+ (1.5/session)

Learn about emerging therapies in mental health and wellness, with a focus on psychedelic medicine and complementary techniques in psychotherapy

Become aware of, and learn more about, therapies that patients may be seeking or have experienced, with underground providers or in clinical trials

Assess and explore the potential of incorporating the use of these emerging therapies in medical practice in the future (within regulatory frameworks).

Session Time: Each session will run from 1900 – 2030 via Zoom (link to be provided by calendar invite).

Each session will include a presentation as well as the opportunity for smaller group discussions and Q&A

Topics (7 in the series):

1. *Indigenous Ways of Healing* (April 14th) – Candace Campo, Sechelt Nation Anthropologist, Educator and Storyteller
2. *My Experiences using Psilocybin in Palliative Care: First Six Cases* (May 12th) – Bruce Tobin, PhD
3. *MDMA-assisted Psychotherapy with Trauma Survivors: Research Phase 3 Study and Clinical Experience* (June 9th) – Dr. Ingrid Pacey
4. *Psychotherapy and Psychedelic Medicines: Greater than the Sum of Their Parts* (Sept 8th) – Dr. Devon Christie
5. *Ketamine: From Anesthetic to Antidepressant and Beyond* (Oct 13th) – Dr. Ian Mitchell
6. *The Failed Promise of Modern Psychiatry* (Nov 10th) – Dr. Crosbie Watler
7. *How to Get More Psychedelic Experience & Training* (Dec 8th) – Dr. Pam Kryskow

*Allied Health Care Providers are welcome to attend.
