

IHealth Education and Readiness Checklist

IHealth

For RJH Medical Staff

- I have registered for my **Virtual Classroom Education** (mandatory education)
 - If not – contact via: IHealthEducation@islandhealth.ca
 - Via cell: Rhonda 250.713.0484
- I have completed my **Virtual Classroom Education** (4 hours)
- I have registered for my next education session - my **Facilitated In-Person Review Session** (mandatory education)
 - If not – contact via: IHealthEducation@islandhealth.ca
 - Via cell: Rhonda 250.713.0484
- I have attended my **Facilitated In-Person Review Session** (2 hours)
- I have gone onto the **Island Health EHR Education portal** and reviewed the learning assets related to:
 - Major Hemorrhage Protocol Order Set Instruction (Emergency, Critical Care, Surgery and Anesthesiology, ObGyn, Perinatal)
 - Diabetic Ketoacidosis (DKA) 2024 Module (Internal Medicine, Endocrinology, Emergency, Critical Care)
 - PowerChart Interfacility Transfer Medication Reconciliation (all)
 - Provider - Lab Computerized Provider Order Entry (all)
 - Insulin Sliding Scale in PowerChart Utilizing CPOE (those who order insulin)
 - And for those interested in learning how to document a Best Possible Medication History
 - Documenting the Best Possible Medical History (BPMH) in PowerChart utilizing PharmaNet integration
- I have arranged or dropped into a **Personalization Session** (planned for May 29 to June 7).
 - What is this session: While not mandatory, this session will position me for CPOE success. A PowerChart adoption coach will ensure my views are set up according to my practice needs, that I have identified my favourite order sets and that I know how to “modify and save” a favourite order. If I am a surgeon or proceduralist, the coach will ensure that I know how to, and have placed my first day of surgery orders.
 - Location: RJH and VGH Surgical and Physician Lounges; Engagement Labs: RJH - RB 203 and VGH - S275
 - Availability: 7 a.m.- 4 p.m. Individual sessions are anticipated to be 30 to 60 minutes.
- If I am the **MRP for inpatients expected to be in hospital June 8th weekend**, I will need to sign off on a “cutover” package – confirming that the orders that have been collated by nursing and pharmacy are correct and ready to be entered electronically on my behalf (or by me if I choose to do so).
