

Community Site Medical Lead, Oceanside Urgent Care

Role Focus

The Community Site Medical Lead, Oceanside Urgent Care works with health care professionals at the site to support the delivery of high quality and patient focused urgent care in a team-based setting. This front-line leadership role supports local medical staff governance, in alignment with the Medical Staff Bylaws and Rules. Furthermore, the Community Site Medical Lead acts as a keystone between senior leadership, site health professionals, and site operations.

The role requires close collaboration with the Community Medical Director, other local Community Site Medical Leads, the departmental leadership, community partners (such as the Division of Family Practice), and acute care partners to foster a respectful, supportive, and collaborative environment for all urgent care providers and allied health staff within the site.

This role functions in a co-leadership partnership. The co-leadership model values shared accountability, joint decision-making, and the integration of medical and operational perspectives.

Key Impact Areas

As Community Site Medical Lead, you will be accountable for:

Operations:

- Maintaining a consistent site presence and liaising regularly with the Manager.
- Providing oversight of site-level administrative procedures to ensure standards of appropriate continuity and results management.
- Supporting medical staff in identifying and implementing operational improvements in collaboration with site and departmental leadership.
- Assessing, monitoring, and anticipating team resource needs and working with medical and operational leaders to prioritize these needs within available resources.
- Ensuring scheduling completed for Urgent Care physician shifts.
- Supporting recruitment of urgent care physicians.

Strategy:

- Providing input on patient care trends and operational opportunities and challenges that inform local and regional strategic planning.
- Implementing strategic initiatives at the site level, ensuring they align with regional program plans.

Governance:

- Participating in workforce planning discussions to identify current and future workforce needs at your site.
- Leading medical staff recruitment processes in alignment with Island Health policies.
- Conducting credentialing and privileging activities at your site, in alignment with the Medical Staff Bylaws and Rules, acting as a primary contact for Medical Staff in the process and liaising with Departmental leadership as required.
- Providing input on patient care trends and operational opportunities and challenges that inform local and regional strategic planning.

- Implementing strategic initiatives at the site level, ensuring they align with regional program plans.
- Managing any concerns related to the professional conduct and performance of medical staff, with support of senior leaders and the Enhanced Medical Staff Support team as required.
- Holding annual medical staff check-ins focused on performance, engagement and well-being, career development, and future workforce planning.

Quality:

- Demonstrating and upholding an environment of cultural safety and humility, at your site.
- Collaboration with your Community Medical Director and operational leaders to inform local quality priorities
- Overseeing implementation of continuous quality improvement and innovation initiatives at the site.

Communication & Collaboration:

- Advocating for patient-centered care and fostering a collaborative environment.
- Implementing regular communication with all members of the medical staff at your site.
- Collaborating with your Community Medical Director, departmental leadership, operational leadership, community partners, and fellow Site Medical Leads.

Other duties as assigned.
