# Frequently Asked Questions – Health PPE Portal

Questions and Answers for Primary Care Providers and Community-Based Specialists

Last revised: November 26, 2020 @noon Final location: www.HealthPPE.gov.bc.ca

#### Overview

What is the Health PPE Portal?	The Health PPE Portal allows general practitioners, nurse practitioners and specialist physicians in community clinics to order personal protective equipment (PPE) and critical supplies through a centralized ordering system, at no cost, for the duration of the COVID-19 pandemic emergency response.  This ensures reliable and equitable access to PPE and critical supplies to safeguard the health of health-care providers and their patients.
Who is eligible to receive PPE through this process?	General Practitioners, nurse practitioners and specialist physicians in community clinics are eligible to order PPE and critical supplies through the Health PPE Portal.  Providers who work for a health authority or at a health authority site will continue to receive their PPE and critical supplies through their existing ordering process and are not eligible to submit through the portal.
What will the process look like?	General practitioners, nurse practitioners and specialist physicians in community clinics are receiving letters that include a unique customer number and additional information on how to access the Health PPE Portal. Practitioners who did not receive a letter by December 15, 2020 are to please contact <a href="mailto:health.ppe@gov.bc.ca">health.ppe@gov.bc.ca</a> .  Once you have logged into your account, you will be able to order up to three months of PPE and critical supplies through the portal. Orders will typically be shipped within five business days.
What products are available through this program?	Supplies available include medical grade masks, gowns, gloves, eye protection, and disinfecting products.

	<del>-</del>
	General practitioners, nurse practitioners and specialist
	physicians in community clinics will be able to order up to
	three months of supplies to support in-person patient
	visits, including sufficient medical masks to support the
	updated policy on mask use in health-care facilities during
	the COVID-19 pandemic. Providers will also have an
	option to order a limited supply of N95 respirators,
	pediatric medical masks and nitrile gloves. For providers
	requiring additional pediatric masks, email
	health.ppe@gov.bc.ca including your customer number in
	the email.
What criteria is used to review	To be made available in B.C., PPE products undergo a
PPE?	clinical review process by Provincial Health Services
	Authority supply chain and health authority experts. This
	process considers guidelines by established regulatory
	bodies and organizations with accredited standards for
	medical products. Vendors also undergo a review to
	confirm legitimacy of products and services. For more
	information, consult <u>B.C.'s PPE supply, assessment,</u>
	testing and distribution protocol.
How long will this program be in	General practitioners, nurse practitioners and specialist
place for?	physicians in community clinics will be able to order PPE
	and critical supplies through this system at no cost for the
	duration of the COVID-19 pandemic emergency response.

## Creating/Updating an Account

How do I log in and create an account?	Go to <u>www.HealthPPE.gov.bc.ca</u> .
	Once there, enter your unique customer number, provided in your letter from the Ministry of Citizens' Services, along with your postal code.
	<b>Note</b> : This will be the postal code listed on the letter containing your unique customer number. You will be able to change your postal code later within the system if it is not current.
How do I change/correct my shipping address?	Once you have logged onto the portal, you can change your shipping address. Once changed, you will use this new postal code to access the system.

My login information didn't work. Who do I contact?	If you have questions about registering your account or ordering supplies through the Health PPE Portal, please
	contact <a href="mailto:health.ppe@gov.bc.ca">health.ppe@gov.bc.ca</a> including your customer number in the email.

## PPE & Critical Supply Ordering

Will I be able to obtain medical masks to comply with the new Mask Use in Health-care Facilities During the COVID-19 Pandemic policy?  How much PPE and critical supplies can I order?	Yes, you will be able to order medical masks for yourself, your staff and patients to comply with this policy at no cost.  These products are in high demand and intended to support all general practitioners, nurse practitioners and specialist physicians in community clinics across B.C., so limits will be applied. While we encourage providers to order their full three-month allocation,
	please ensure that you do not order more that than this allotment as this may cause your order to be delayed.
How do I order PPE and critical supplies if I run out?	If you exhaust your three-month supply early, you may make a request for more PPE and critical supplies by emailing <a href="https://example.com/health.ppe@gov.bc.ca">health.ppe@gov.bc.ca</a> including your customer number in the email.
How do I place an order on behalf of a clinic with several primary care providers?	Each general practitioner, nurse practitioner and specialist physician in a community clinic will have their own account and they, or their office staff, can place orders for the practice.
How do I request equipment and supplies not listed in the portal?	Only supplies listed are available through the portal.
Can I still order more PPE from my existing PPE provider and be reimbursed?	PPE ordered from your existing vendor will not be reimbursed.
What should I expect after I place an order? When will I receive the supplies I ordered?	You will be required to provide an email address when creating your account and will receive an email confirmation of your order within one business day.  Orders will typically be shipped within five business days.
If I work for a regional health authority, can I order PPE and critical supplies through Health PPE Portal?	No, regional health authorities have their own process for obtaining PPE and critical supplies and, if you work for a health authority, you should continue to use your existing ordering process.

## After Delivery

How often can I reorder PPE and critical supplies from this portal?	Your PPE and critical supply allocation will refresh every three months. In the two weeks leading up to the end of your three-month supply period, you can place your next order.
	Should you need additional supplies during the three-month period, please contact <a href="https://example.com/health.ppe@gov.bc.ca">health.ppe@gov.bc.ca</a> including your customer number in the email.
I have received products that I will	We encourage you to work with local Divisions of
not use. What do I do with them?	Family Practice to redistribute unused products where
How do I return them?	they might be needed.
How do I return damaged products?	If products are found to be defective, please contact
0 1	health.ppe@gov.bc.ca including your customer number
	in the email and customer service representatives will
	assist you in getting replacement products.
How do I return recalled products?	If products are recalled, clients will be notified and
	given instructions on what to do at that time.

## Additional Questions

My order hasn't arrived. Who do I contact?	You can contact <a href="mailto:health.ppe@gov.bc.ca">health.ppe@gov.bc.ca</a> for more information on your order. Please include your customer number in the email.
Who do I contact for more information?	For more information, please contact <a href="health.ppe@gov.bc.ca">health.ppe@gov.bc.ca</a> including your customer number in the email.
