

Island Health & Climate Change

HAVE YOUR SAY!

Are you passionate about the environment, our health and our planet's health? Then Island Health wants to hear from you and your teams!

We invite all staff, medical staff and volunteers to participate in the Island Health Climate Change and Planetary Health Engagement Survey. The survey will be open for **three weeks from September 5-26**

FOLLOW THE QR CODE FOR ACCESS OR VISIT:
surveys.viha.ca/surveys/climate-change-survey

Your responses will help inform a strategy to align efforts across the organization. This strategy will build on the good work already occurring, and create direction, momentum and support for climate-related action throughout Island Health. Thank you for your engagement as we embark on this exciting work!
