Youth Harm Reduction Award

The annual **Youth Harm Reduction Award** is open for applications! Nominate a young person(s) you know undertaking innovative and impactful work to reduce harms by March 31, 2024.

The **Caring for People Who Use Substances** staff intranet page has links to resources and education modules to support you in applying a harm reduction approach while ensuring safety for all.

Education and Resources

Thanks to those who have submitted questions; keep them coming if there is something about harm reduction you want to know.

Email **Beth**, Peer Project Coordinator, to hear her perspective.

Ask Peer Project Coordinator

New Inhalation Service

People who inhale drugs now have access to a permanent indoor inhalation overdose prevention service in downtown Victoria.

Watch this six minute **video** or read this **article** to learn more.

Youth Unregulated Drug Toxicity Deaths

See the new guidelines for **Providing Harm Reduction Services to Youth** in British Columbia (B.C.). Learn more about **Youth Unregulated Drug Toxicity Deaths** in B.C., like how zero deaths had only hydromorphone detected.

Check out the efforts being made at West Coast General Hospital to support staff and people accessing services who are using substances.

Watch this brief video on the **Harm Reduction Cupboard**.
