

Re: MED Eating Disorder Adult Admission (Multiphase) order set now available to non-CPOE activated sites

Date: November 17, 2025

To: Order Set users including Providers, Nurses, Pharmacists, Allied Health & NUAs at non-CPOE activated sites

From: Medication Safety & Medicine C.A.R.E Network

Background:

In cooperation with a Provincial Eating Disorders Community of Practice, Island Health have developed an order set for adult eating disorder medical stabilization that is now available for use across Island Health. This order set has already been available at CPOE activated sites e.g., NRGH, RJH, VGH, CDH, and is now newly available to non-CPOE activated sites.

What do I need to know?

- MED Eating Disorder Adult Admission order set is a Multiphase order set that aligns with best practice to help ensure correct inpatient management for medically complex patients admitted with eating disorders. The aim is medical stabilization only.
- It is intended for use in adult patients only and should not be used in patients under the age of 17.
- The Eating Disorder Adult order set is available:
 - **For non-CPOE activated sites:** Via the [Island Health Paper Order Sets library](#) (in the [Medicine folder](#)).
 - **For CPOE-activated sites (e.g. RJH, VGH, NRGH, CDH):** Already available in Cerner PowerChart.

What do I need to do?

- Consider printing the new order set in small batches, from the [Paper Order Set Library](#) or Print Services.
